Rugged 1092 Series LED indicators deliver superior daytime visibility, making it ideal for new and retrofit designs in a wide range of applications...

VCC Expands High-Brightness LED Panel Mount Indicator Series To Include 125VAC Version

SAN DIEGO, CA (August 16th, 2016) — VCC, the global leader in indication and specialty illumination solutions, has expanded its offering of high brightness LED panel mount indicator series to include a new 125VAC version. The 1092 family of LED panel mount indicators now include a 12V, 28V and 125V versions.

Designed to simplify new and retrofit designs, the 1092 Series LED panel mount indicator features a front panel snap-in mounting that eases installation, leading to a significant reduction in assembly time and cost. Snaps fit into 0.500" (12.7mm) panel hole and requires no additional hardware.

The 1092 Series LED panel mount indicator provides low energy consumption, fast on/off cycling, low heat generation, and long operating life of more than 100,000 hours. The 1092 Series LED indicator offers superior daytime visibility and achieves full brightness in microseconds.

The LED panel mount indicators are shock and impact vibration resistant when used with a speed nut accessory, improving the overall reliability of the equipment. The 1092 Series is water, dust and oil resistant when used with an O-ring gasket accessory that also helps maximize the life expectancy of the equipment.

Available in four different lens styles, including hi hat, hi dome, semi dome and small dome, the customizable 1092 Series meets a wide range of application requirements. Offered in red, green and amber colors, the 125VC LED indicators are designed with wire leads (4.4"/4.8") or tab terminal (0.187" x .020").

"VCC consistently works to expand product offerings to meet customer requests and solve industry needs," said Sannah Vinding, Director of Product Development and Marketing at VCC.

“The new 125 Volt 1092 Series LED panel mount indicator delivers rugged and reliable performance in harsh environments, making it ideal customers designing for mission critical and/or severe operating conditions.”

Featuring a bezel finish and polished stainless steel, the 1092 Series is compliant with RoHS and REACH requirements. The 0.500” LED panel mount indicators are cULus listed.

The 1092 Series LED panel mount indicators can be used in automation & control, electrical control panel, food service, industrial, manufacturing, maritime, medical equipment, oil & gas, people mover, and transportation applications.
