

Press Release Quick Tips

*CNX722 SERIES EXPANDED WITH 120VAC VERSION TO MEET INDUSTRY NEEDS
RUGGEDIZED LED PANEL MOUNT INDICATOR*

Distribution Date: September 5, 2017

Product Name: CNX722 Series 120VAC

Product Description:

0.866” (22mm) LED Ruggedized Panel Mount Indicator

Key Markets/Applications:

- Industrial Machinery
- Control Cabinets
- Slot, Gaming and Vending Machines
- Transportation Dashboards
- Maritime, Oil and Gas Industry
- Safety and Emergency Applications
- Instrument Panels

Key Benefits	Product Specifications
<ul style="list-style-type: none">● CNX714 series expanded to include new 120VAC version to meet industry needs. The ruggedized indicator series with built-in LED offers fast, easy installation in a wide range of applications.● Ideal for harsh environments applications that require the highest quality and where indicators are tasked with communicating the potential for danger both quickly and accurately.● Featuring fast pitch threads and special nut assemblies that enable quick installation by requiring only a single turn with one’s fingers or a 1” hex tool.● Available in five single colors: red, yellow, blue, white and green - featuring wide viewing angle and broad visibility.● As well as being dust and watertight to IP67 the LED CNX722 indicators are vibration resistant.	<ul style="list-style-type: none">● Panel hole diameter: 0.866” (22mm)● Wire Leads● Voltage options:120VAC● Built-in LED● Wide viewing angle● IP67 rated to protect panel from total dust ingress and withstanding water immersion● Single color: Red, Green, Blue, Yellow, White● Resistant to shock and vibration● Mounting hardware provided● Compliant with RoHS and REACH requirements
