

# Press Release Quick Tips

**Direct incandescent replacement LED lamp that delivers improved illumination, durability and long life**

**Distribution Date:** October, 2018

**Product Name:** T-3 1/4 Miniature LED lamp with Lens

**Product Description:** T-3 1/4 Miniature LED replacement lamps

**Key Markets/Applications:**

- Industrial Equipment
- Aircraft
- Radios
- Status Indication
- Instrumentation
- Toys

Key Benefits	Product Specifications
<ul style="list-style-type: none"> <li>• LED replacement for incandescent lamps in a variety of colors and voltages and is ideal for mission critical applications.</li> <li>• T-3 1/4 Miniature LED replacement lamps delivers reliable, long life and preferable indication</li> <li>• Ideal for drop in replacements for the less efficient filament lamps, typically used within pushbutton switches and indicators.</li> <li>• Offered in a range of various bases (bayonet, screw) and fit into standard sockets</li> <li>• Available in five single colors: red, amber, green, blue, white</li> <li>• High intensity LED offering with fresnel lens for improved visibility</li> <li>• Ideal for critical applications where the presence of indication is important or where lamp replacement is difficult or costly</li> <li>• Low power consumption - uses up to 90% less energy than an incandescent lamp</li> <li>• LEDs operate significantly cooler than traditional lamps</li> <li>• Designed for quick installation and reduces overall cost due to less-frequent replacements</li> </ul>	<ul style="list-style-type: none"> <li>• T-3 1/4 miniature LED lamp with lens (light bulb)</li> <li>• High intensity LED with fresnel lens for improved visibility</li> <li>• Wide angle for small and medium lens applications</li> <li>• Voltage: 5-60 VDC or 120VAC</li> <li>• Base: bayonet, screw</li> <li>• Available in five LED single colors: red, amber, green, blue, white</li> <li>• Five lens colors available: red, amber, green, blue, water clear</li> <li>• Bi-polar is optional</li> <li>• Low power consumption</li> <li>• Mounts directly into industry standard sockets</li> <li>• Single chip based LED</li> <li>• Direct incandescent replacement</li> <li>• Low power consumption - uses up to 90% less energy than an incandescent lamp</li> <li>• Low heat generation, LEDs operate significantly cooler than traditional lamps</li> <li>• Designed for quick installation and reduces overall cost due to less-frequent replacements</li> <li>• Fast on/off cycling, shock resistance, and long operating life</li> <li>• Compliant with RoHS and REACH</li> </ul>
