

P8 Series

0.500" (12.7mm) LED Indicator Front panel snap-in mounting

Designed to enhance the LED contrast and features a front panel snap-in mounting that eases installation, and requires no additional hardware

Termination

Wire leads, Tab Terminals

Offered with wire leads or tab terminals, 2 different lens styles, 5 different lens colors and operating voltage range from 2 to 60 VDC and 120VAC

Single LED

Red, Orange, Amber, Green, Blue, Water Clear

Available with a variety of LEDs and provides low energy consumption, fast on/off cycling, low heat generation, and long operating life.

Fresnel Pattern Lens

High Hat, Flat

Available in two different lens styles: hi-hat or flat - all offered in five different lens colors with fresnel pattern lens that provides an excellent light focus and assure maximum light output

Related Voltage

2 to 60VDC, 120VAC

Black Housing

Enhances the LED contrast

"D" mounting hole prevents any rotation of the indicator when installed and connected during the assembly process

'D" mounting Hole

Easy installation and Prevents Rotation

Designed for quick installation in display panels and reduces overall cost due to less-frequent replacements. Designed, manufactured and tested in accordance with the relevant UL standards

Compliance

UL listed, RoHS, REACH

Product Specification

- LED panel mount indicator
- Panel hole diameter: Ø0.500" (12.7mm)
- Snap-in mounting requires no additional hardware
- Terminal styles: wire leads, tab terminals
- Offered with a variety of LEDs
- Voltage range from 2 to 60 VDC, 120VAC
- Low power consumption and long life
- Single color: red, orange, amber, green, blue and water clear
- Available with: high hat or flat fresnel pattern lens
- "D" mounting hole prevents any rotation of the indicator when installed
- UL Listed
- Compliant with RoHS and REACH requirements

Applications

Transportation

Industrial

Automation

Food Service
