Conflict Minerals Statement

Ref: Inquiries on - Conflict Metals or Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010: Section 1502 - Conflict Mineral.

Visual Communications Company, LLC (VCC) undertakes due diligence to attempt to determine if conflict minerals are used in our products. Conflict Minerals are described as Gold (AU), Tantalum (Ta), Tungsten (W) and Tin (Sn) that are sourced from the Democratic Republic of Congo or adjoining countries from mines controlled by non-governmental military groups.

We have contacted our supply chain to ensure the materials that are used do not come from the names regions. In addition, as part of our vendor selection/approval process our supplier survey questionnaire requests direct confirmation that minerals we purchase do not contain conflict minerals and a self-declaration is also required that the fully supply chain process of the suppliers has been examined to confirm this.

We state that there are indications that any products supplied by VCC contain the conflict minerals originated from the named regions. We will continue to monitor our supply chain to ensure we remain compliant with this law.

Please direct questions to regulatory@vcclite.com

Respectfully,

A handwritten signature in black ink, appearing to read "AZ", is written over a light blue horizontal line.
