

# Switches

Leverage best-in-class reliability and performance with our innovative switches.

As a leader in HMI solutions, we're redefining possibilities with our advanced portfolio of general switches. Designed for diverse applications, these components deliver exceptional selection, durability, and the capacity to even handle high in-rush currents and/or voltages.

## Pushbutton Switches

- Sub-mini (8.3mm), miniature (12mm) & standard (20.2mm) sizes
- Momentary & latching actuation
- Snap-in & threaded mounting
- Standard & IP65/67 watertight ratings
- Black or R/G/B actuator

## Rocker Switches

- 12.9x19.2mm, 13.9x28.6mm, or 12mm round sizes
- Single or multifunction
- Single & double pole
- Snap-in or threaded mount design
- Black or R/G/special mark actuator

## Toggle Switches

- Robust metal housing & bat. 12mm threaded mount
- Momentary & latching actuation
- Single or multifunction
- .250" quick-connect terminals & vibration resistant design
- Standard & IP68 waterproof options

## Product Overview

### Terminal Type

Quick-Connect .187"  
Quick-Connect .250"  
Solder Lug

### Function

Single & Multifunction

### Mounting Type

Panel Mount  
Snap-In

### Illumination

Illuminated, Non-Illuminated

### Actuator Color

Standard & Custom  
(Black, Silver, Red, Green)

### Compliance

ROHS, ENEC & REACH
